

About Silicon Valley Robotics

501c6 association supporting innovation and commercialization of robotics technologies

Creating Robotics Events:

Bots, Bevs and Devs

Investor Summits

Leadership Circle and SVR Board Meetings (invite only)

Custom Developer or Career Events

Partnering with other robotics event organizers (like Open Robotics or IEEE)
the IEEE Hard Tech Venture Summits and the Industry Tech Talks at IEEE RAS
conferences.

Hosting IEEE HUmAnoids 2026

[Lu.Ma Event Calendar](#)

[SVRobo Event Page](#)

Connecting the Robotics Ecosystem:

investor / Startup Introductions ([Investor sign up](#) and [Startup sign up](#))

Sharing startup opportunities, market or vertical summits and showcases.

Liaising with other policy, standards and manufacturing organizations ie. NIST, ASTM,
IEEE, AMB, Robots for America - ie. starting the Humanoids Standards Study Group,
Working with universities and research labs, ie. UCs, Stanford Robotics Center, SRI,
national labs and innovation groups.

Individual, custom or unique connections/introductions

Communicating Robotics Information:

Providing information and thought leadership from the SVR robotics ecosystem

Being a high quality trusted source of robotics information

Representing robotics trends to national, corporate and international delegations/groups

More than 25,000 subscribers across newsletters ([Substack](#) and [Linked In](#))

[Website](#), [Linked In Group](#) and [Linked In Page](#).

Individuals participate by subscribing to our news, groups and calendars and attending events.

Companies (both robotics and other partners) participate by becoming members and sponsoring our events and activities.

For more details, see our most recent [Silicon Valley Robotics Partnership Prospectus](#).
